### **Transportation**

#### **Student Transportation Services**

The Board of Education, in accordance with state law, shall provide free transportation for eligible students attending the District schools. The Superintendent shall ensure that the transportation services of the District meet all of the guidelines established by the Missouri Department of Elementary and Secondary Education, i.e., Missouri Pupil Transportation Administrative Handbook, Missouri Minimum Standards for School Buses, Missouri Certified Bus Driver Instructor's Manual, and Missouri School Bus Driver Manual, as well as the policies that pertain directly to the qualifications of bus operators and operational procedures adopted by the Board of Education.

According to regulations of the Department of Elementary and Secondary Education, bus transportation will be provided to and from District schools for all students who reside three and one-half (3.5) miles or more from the school located in their attendance areas. State regulations provide for reimbursement to districts providing transportation for those students living more than one (1.0) mile from their attendance area school. The Superintendent is directed to prepare annually a plan for student transportation services for the upcoming school year which addresses student transportation needs within the limitations of District finances, including state aid for transportation services. The plan will address mileage distance from school and grade level requirements for receiving transportation to be provided by the District. This plan shall be presented for School Board approval no later than the regular August Board meeting of each school year. In cases when the transportation plan remains the same as the prior school year, the plan may be submitted to the School Board as an information rather than an action item.

All eligible students with disabilities will be provided bus transportation by the District between home and the special education program. Transportation for a student with disabilities will be provided between schools if the Individualized Education Plan (IEP) team determines that such transportation is necessary as a related service due to the student's disability. Eligibility must be stated in the student's IEP.

Students are expected to comply with behavioral expectations as stated in Policy 2652 - Student Conduct on Buses, while they are passengers in District vehicles.
